LEAVING A LEGACY OF OPEN SPACE

**South High School
Torrance, CA
LIFE Team**

March 27, 2008

Dear South High Students,

We commend you for developing the LIFE Team (Landfill Improvement For the Environment) that is concentrating efforts not only on local air pollution, but taking it to the next level by researching the air pollution issues in our region and beyond.

By tackling the air pollution issues, you are taking actions and creating public awareness that will help eliminate a world wide problem. Since Los Angeles has the worst air pollution in the United States, it is wonderful that young adults are addressing this issue.

We congratulate you on your efforts and wish you the best.

Sincerely,

**Bill Brand
